

LAPHCC 2010 Continuing Education Frequently Asked Questions

C.E. Requirements

1. **Why do I have to take Continuing Education classes in order to renew my license?**

The Louisiana State Legislature passed legislation that authorized the State Plumbing Board to implement a Continuing Education program. The State Plumbing Board implemented the Continuing Education requirements in 2008. LAPHCC is a Continuing Education course provider. Please call the State Plumbing Board at (225) 756-3434 if you have any questions about Continuing Education requirements.

2. **Do I have to take Continuing Education hours every year?**

Yes, in 2008 the Continuing Education requirements went into effect. Each year, every Master Plumber must complete 6 hours and every Journeyman Plumber must complete 4 hours in order to renew their license for the next calendar year.

3. **Will I have to take a test?**

No, there is no test involved with the Continuing Education program.

4. **Will my Continuing Education credits from another state count for my Louisiana requirements?**

Requirements vary from state to state. Please contact the State Plumbing Board at (225) 756-3434 for more information.

5. **If I plan on taking a Master Plumber or Journeymen exam and receiving a license in 2010, am I required to take CE in 2010 to renew my license for 2011?**

Anyone who takes an exam and receives an initial license is exempt from the CE requirements for that year. If you have a Journeymen license and you take the Master Plumber exam and obtain a Master Plumber license in 2010, you are only required to take 4 hours of CE (rather than 6 hours) in 2010 to renew your Journeymen license. In 2011 you will have to take 6 hours to renew your 2012 Master Plumbers license. If you take the Journeyman exam and obtain a Journeyman License in 2010, then you are not required to take CE until 2011.
